I enjoyed this & would recommend it, it's a zany puzzle-platform with good exploration elements and a nice overarching plotline, a few things that could be improved but it was definitely money well spent for a few hours of bouncing around solving jumping puzzles, shooting at things, and trying to find out what the hell was up with Chad anyway (Did I discover the answer to the last one? Play the game and you might find out!).

Longer review with highlights & things I thought could be improved is here:

<http://Vexilian.co.uk/forum/index.php?topic=5267>. I purely bought this because i love the game and the downfall expansion was free so i wanted to give the Devs my support.

[Decent costumes.. Could have just made a youtube video with all the jokes in it. Would have been the better option - but still just mildly funny.. You play as Jane, who hunts Others with her adopted brother Jace. Jace was cursed by one of the Others, which are sort of witches. Others have been plaguing mankind for some time. You have managed to track down the Other who cursed Jace so long ago. But she is also hunting you\u2026](#)

[The plot is thrilling, the minigames entertaining, and the HO scenes are fun. Worth the price.. While its definitely shorter than I expected it to be, it does have a decent storyline and interesting gameplay. I've seen Visual Novels include elements of strategy games \(IE: Sunrider, War Of The Human Tanks, etc.\) but including gameplay dealing with stealth and sneaking past enemies? That's something I'm totally unfamiliar with.](#)

[Which is why I give this game a thumbs up.](#)

Not my favorite ND game, but also not on the bottom of my list. While I enjoy the puzzles in Trail of the Twister, the dialogue is unimpressive. I wish they spent a little more time on character development, and a little less time forcing me to catch mice. All in all, I enjoy this game, but its not one of those ND staples I can play over and over again.. Strange and boring game. Not scary in the least. All you do is move. There is no inventory, there are no puzzles, just moving and avoiding things and a bit of "collecting" which is just moving to the right spot. No real goal, no narrative.

Your on a trail, then in a house, then in a dungeon, then in maze-like hallway, then in water with floating balls of light. No sense, no connective segue. And then you get eaten 1000 times by a giant head until you have to look up what to do and then when you try to do it it doesn't work.

Clipped through stuff and off the map a couple of times.

No instructions, vague goals. Black and white visuals don't help this game. Thank god they let turn off the screen effects, they are a headache forming, seizure inducing, nausea fest.

Not worth your time unless you want to know NOT what to do when making a horror game. Thankfully I picked this up in a bundle that cost less than teh actual price of this game.. Can anyone tell me how to change to english? i dont even see any option to change to english. Great remaster lots of extra content a must have if you are any kind of Night Trap fan.. very good price for what you get!. This version was painful to play it.

Merry Rotten Xmas!:

Make sure you enjoy your holidays more than our pal here! Stay safe and see you next year!

2019 will be a great year as:

- 1) There's a lot more info we're going to share with you, ;-)
- 2) DAYMARE: 1998 is going to be released! :-O
- 3) And some other stuff will be happening around the world as well... :-l

We've implemented a fix this morning and it appears to have worked on our test machine, so the Mac build should be good to go again!

If any Mac users still have problems after this, let us know and we'll try getting out a fix as soon as possible!

As a reminder of what was added in the Mac build patch, [here's our original Mac build announcement](#).. **Update 1.31:**

Fixes:

- Copying an instrument with a different note sequence length retains sequence length

Improvements:

- New GUI skin
- New keyboard shortcuts in Song Browser (Up,Down,PgUp,PgDown,Home,End,Enter)

. Train Station Renovation Devlog#3:

Hello railfans!. New DLC for Game Developers and Video Creators:

Imagine you have a rich set of sounds, jingles and music pieces within reach which you can use in your games, music videos, trailers, advertisements or your streams. Royalty free. Available inside a robust music software. Chiptune Pack for **Rytmik Ultimate** is precisely like this.

https://store.steampowered.com/app/648200/CHIPTUNE_PACK_Games_Videos/

This DLC for **Rytmik Ultimate** is offering hundreds of jingles, sounds and music pieces instantly usable in your games and videos. You can access all this content through three tracks included in this DLC.

SONG NAME	AUTHOR	RATING	MODIFIED	GENRE/TAG
8BIT DLC - MOOD + MUSIC	FXPACK	0	19-1-31	CHIPTUNE/BANK
8BIT DLC - JINGLES	FXPACK	0	19-1-31	CHIPTUNE/BANK
8BIT DLC - FX	FXPACK	0	19-1-31	CHIPTUNE/BANK

- The first track offers short music pieces with various kinds of moods. Positive, negative, happy, fast, slow, atmospheric - we got all your needs covered. (100 Music Pieces)
- The second track is all about jingles. Do you need win, loose or death sound? We are ready for this. (60 Jingles)
- The third track offers ready-made sound effect perfect for any arcade game or retro styled animation. (120 Ready-made Fx Sounds)

Everything we are offering you is based on instrumental chiptune bank which is an integral part of Rytmik Ultimate. You can use jingle, music piece or sound effect as you like without or with further modification. We don't care as long as your players and viewers are happy. But to be honest, we hope you play with our presets and create and share your creations with the community. It's straightforward and fun to create something unique and original.
